

ERRP- Final Health Care Expense Reimbursement

The Board is pleased to announce that in mid December, the Benefit Trust (BT) will issue final ERRP checks to those who were enrolled in either the **BCBSM or Hartford (medical insurance only) programs** and paid the plan premium for the October 2013 coverage period. The payments will be graduated based on whether you are in the single, couple, or family plans. Two additional factors that affected ERRP distribution amounts were:

1. Whether or not you are HCTC eligible.
2. The amount of your net annual premiums.

In addition, if you were enrolled in one of the medical plans, and had a family member enrolled in a *different* medical plan, *each enrollee* will receive an ERRP amount commensurate with the enrollee's plan. In most, but not all cases, there will be *two* ERRP checks issued. The payment(s) will help defray your 2013 health care expenses: deductibles, coinsurance, and co-payments. The ERRP payment is non-taxable and you will not receive a 1099. Please ensure that you cash your check promptly to avoid additional administrative expenses. ERRP distribution amounts can be accessed at the following link:

This distribution will exhaust our ERRP funds.

This will be the final ERRP payment.

If you would like additional information, please refer to the DSRA-BT website or contact a DSRA-BT board member. Thank You.
